

A wide-angle photograph of a coastal area in Dubai. In the foreground, a sandy beach curves along the edge of clear, turquoise water. To the right, a row of modern, multi-story residential buildings with light-colored facades and terracotta roofs sits on a slight rise. In the background, the iconic Burj Al Arab hotel, shaped like a sail, stands prominently against a clear blue sky. Other buildings and the city skyline are visible in the distance.

WELCOME

At Knight Frank we have three principal aims: to provide our clients with market-leading research, to deliver excellent advice and to provide access to the global market via industry-leading technology.

We are the world's largest independent property consultancy with a network of over 335 offices in 52 countries. Being a partnership allows us to put our clients first. We focus on giving them the best advice and putting long term relationships before short term wins. Trust and integrity are everything. The combination of our people, research and technology has helped us grow our enviable track record and that's why clients come back to us for their personal and professional property requirements.

Having recently opened our residential division in Dubai, we feel that we provide a service that the market is not currently providing for buyers and sellers. We are here to advise our clients and give open and honest advice in what can be a very opaque market place to buy and sell in.
